BUCHIYA CONTROLS PRIVATE LIMITED

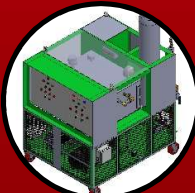

About Us

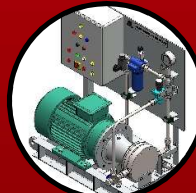

EPC Company for
plant auxiliaries &
Instrumentation for
Hydro/ Thermal /
Water Mgmt/ Process
& Mfg. industries

Has a 5000 Sq. ft.
Manufacturing
workshop in
Faridabad (NCR
DELHI)

ISO 9001: 2015 &
ISO 45001: 2018
certified Company

Has Successfully
completed 50+
Orders within the
last 3 years.

This company is formed by the experienced professionals of the power sector and process industry with engineering back ground. The members of core team have worked for many years, with many achievements under their belt, at senior levels in various organisations including MNCs. Cumulative experience of the core team is above 100 years.

BCPL management has experienced that there are very few quality suppliers who meet the demand of the market with high quality of products with integrated ON TIME supplies and services. Most of the time, total project management concept, is found missing with many suppliers hence the users suffer. **BUCHIYA CONTROLS PRIVATE LIMITED** is here to address exactly these problems and to provide relief to the industries.

This company has entered in market with great ambitions, aiming to achieve success in execution of contracts/orders which no one else has; as a supplier and service provider for auxiliary systems of various segments of power sector (Hydro/Thermal/Electrification), continuous process industry (Sugar Mill/Pulp & Paper/Plant Suppliers) and water management (Clean/waste water/Irrigation).

- Pre-handover
- Initial occupation
- Post-occupancy care

Annual Maintenance Contract:

We take up AMCs to ensure no breakdown for reason other than external. Company works for listing of required spares for emergency maintenance keeping in mind the minimum inventory cost. Preventive maintenance is essential to ensure reliability and smooth functioning of your plant. Our engineer visits your site at periodic intervals as a proactive measure to optimize and improve the performance of your equipment. Visits in case of an emergency breakdown is always on company plan.

Buchiya

.... Serves need of all type of industries

Operation & Maintenance Contract:

We take up O&M job on contract basis for Hydro Power Plant, Lift Irrigation schemes and Water Supply Systems. With our experience in this field we understand essential conditions of O&M for these plants. We train our team suitably for error free operation and maintenance.

Management of O&M contracts of generation plant is handled at high level in our company with all desired attention and commitment. Safety is on top of our daily working and at no time this is compromised by BCPL team and their associates. We can also provide precautionary, preventive and Shutdown maintenance schedule.

Repair/refurbishment of existing systems:

To keep the plant availability factor at maximum, Repair and Refurbishment of some auxiliary equipment are a regular feature in life of a plant. It becomes important that a source is established who take up the job of repair and refurbishment with high quality of workmanship in given time schedule.

- Our team has complete knowledge of such demand and committed to deliver services at the utmost level of customer satisfaction.
- Using of right spares and tools for repairing is the key for keeping life of equipment at designed level and we do this exactly in the same way.
- We supply the necessary spares from the OEMs at competitive cost.
- If required, the equipment /component are taken to our associate workshop for repair under the factory condition.

Reverse Engineering (electrical/Mechanical)

- Design calculation of concrete structures & foundations
- Testing strength of existing concrete structures
- Preparation of drawings for modification of existing civil structures
- Design, Manufacturing & Supply of spares for retrofitting

Repair/ Refurbishment/ Modification (with material/spares)

- Fire Fighting System
- Cooling & D&D water System
- HV AC System
- Air Supply System
- Hydraulic Oil System
